Nothing in this License shall be interpreted to limit in any way whatsoever Licensee's or any Authorized User's fair use rights under copyright law to use the Licensed Materials.

**4.2** Additionally, the Licensee, subject to the Prohibited Uses clause below, may:

**4.2.1** Allow Authorized Users to have access to the Licensed Materials from the Server via the Secure Network;

**4.2.5** Submit articles and excerpts from the Licensed Materials to regulatory agencies in connection with applications for drug and product approval provided that such uses do not amount to commercial redistribution for direct profit; provided each article or excerpt from the Licensed Materials contains a credit line noting the original appearance of the article in its appropriate journal; provided any portion of the Licensed Materials used for these purposes looks identical to the original material; and provided such use does not present any material from the Licensed Materials in any manner that implies that Publisher endorses Licensee or any of the Licensee's products or services;

**4.2.6** Supply a Patent Applicant with copies (in print or electronic format) of individual articles of the Licensed Materials and to store print copies of such articles for the Licensee's internal use, solely in connection with the patent application process provided each article or excerpt from the Licensed Materials contains a credit line noting the original appearance of the article in its appropriate journal; provided any portion of the Licensed Materials used for these purposes looks identical to the original material; and provided such use does not present any material from the Licensed Materials in any manner that implies that Publisher endorses Licensee or any of the Licensee's products or services;

Additionally, Licensee's institution may supply single copies of articles to a requesting library by electronic transmission for ILL purposes as described above provided the requesting library is instructed to delete the electronic file immediately after delivery to the end user and provided the end user is instructed not to further distribute the article copy.
