2. Grant of Licence, Usage Rights and Limitations on Use

2.1 (...) the Licensor hereby grants the Licensee a nonexclusive, non-transferable right during the Licence Period to allow Authorised Users access to and use of the Licensed Work(s) for the Purpose by means of one or more Secure Networks and via Individual Accounts on the terms and conditions of this Agreement.

The Licensee will ensure that no access is provided, and that no Individual Accounts are allocated, to anyone who is not an Authorised User.

2.2 During the Licence Period, Authorised Users may:

2.2.1 access the Server by means of a Secure Network in order to search the Licensed Work(s) and to view, retrieve, and display portions thereof;

2.2.2 electronically save portions of the Licensed Work(s);

2.2.3 print out single copies of portions of the Licensed Work(s) for personal or research use;

2.2.4 provide print or electronic copies of all or any part of the Licensed Work(s) to national or international regulatory authorities for the purposes of or in anticipation of regulatory approval and/or trademark applications or other regulatory purposes in respect of the Licensee's products or services;

2.2.5 arrange to have material automatically emailed to their own personal email account for their own personal or research use provided that Authorised Users do not forward or send any material to any third-party non-Authorised User; and

2.2.6 use the bookmarks and magazines features on the Licensor's Server to annotate and republish material to other Authorised Users; this right does not extend to any republishing which is not done via the bookmarks and magazines features on the Licensor's Server.

2.3 The Licensee will and Authorised Users will not:

2.3.1 remove or alter Licensor's copyright notices or other means of identification or disclaimers as they appear in the Licensed Work(s);

2.3.2 systematically make printed or electronic copies of multiple portions of the Licensed Work(s) for any purpose; such usage, if required, is subject to additional agreement and an additional fee;

2.3.3 use the Server or emails distributed by it for the purpose of gathering knowledge or information to assist or enable the creation of "deep links" from other websites to the Server or to allow knowledge or information gathered to be used by others for the above purposes. Kinds of deep linking expressly forbidden by this provision include (but are not restricted to): linking which embeds material from the Licensed Work(s) inside a visual frame of reference from another website; any linking which removes any element of the pages naturally rendered by the Server from the screen presented to users; any linking which reduces the likelihood that users will immediately identify the Licensor as the originator and owner of material forming part of the Licensed Work(s) on this Server or in emails distributed by it;

2.3.4 display or distribute any part of the Licensed Work(s) on any electronic network, including without limitation the Internet and the World Wide Web, other than a Secure Network;

2.3.5 access or use the Licensed Work(s) or to systematically receive emails from the Server whether directly or indirectly via any automatic email forwarding arrangement;

2.3.6 use all or any part of the Licensed Work(s) for any Commercial Use, including use by public bodies as part of or to assist with services for which a charge is made;

2.3.7 permit the functioning or content of the Server or Licensed Works to be shown to or viewed in any form by any person, organization, institution or other entity that is known to be offering anywhere in the world job advertisements or information or news comprising or related to funding opportunities for research;

2.3.8 violate the Acceptable Use Policy in force at the time or use the Server to publish or distribute material which is defamatory, obscene, which would constitute a contempt of court, which promotes illegal activities or which infringes the rights (including the Intellectual Property Rights) of any person;

2.3.9 copy or reverse engineer the Licensed Work(s), develop any improvement, modification or derivative works thereof or include any portion thereof in any other computer program, equipment or item; or

2.3.10 represent or claim that it is the owner of the Licensed Work(s) or otherwise do anything that is inconsistent with Licensor's proprietary rights in the Licensed Work(s) or which could infringe the Licensor's Intellectual Property Rights.

2.3.11 Upload or store on the Server any personal information other than the specific items expressly required by the interface to the Licensed Work(s), which may include the User's name, email address, job title/role, research area and institutional identification number.

6. Intellectual Property Rights

6.1 As between the parties, all rights, title and interest, including without limitation, patent rights, copyrights, trade secrets, trademarks, service marks and other intellectual property rights, and any goodwill associated therewith, in and to the Licensed Works, the Material and any other materials supplied by Licensor to the Licensee pursuant to this Agreement, and all related documentation, and all reproductions, derivatives, corrections, modifications, enhancements and improvements thereof, including anonymized statistical data derived from the use of the any of the foregoing, are and will remain at all times owned by Licensor. Other than the rights explicitly granted to Licensee hereunder, all rights are reserved to and shall remain solely and exclusively proprietary to Licensor.

6.2 Should any right, title or interest in any item described in the previous paragraph become vested in the Licensee or any of its Affiliates (by operation of the law or otherwise), the Licensee or its Affiliate will promptly (or immediately on Licensor's request) assign the same absolutely, with full title guarantee free of any third party rights and without payment, to Licensor for the full duration of such rights and all extensions, renewals and reversions thereof.
