

# Become a part of «collective»

«collective» is a web based platform which allows you to work globally together with your colleagues and project partners within a collaborative workspace. Communicate, share, discuss and comment data, results, ideas, plans, concepts and visions privately or publicly.

You can arrange and structure your workspace flexibly: create areas for the whole institute/organization as well as for certain departments and groups. In these areas you are able to adjust sections like

- *discussion boards*
- *file sections*
- *calendars*
- *task lists*
- *dashboards*

as you require. With «collective» you can manage your projects online, simplify your team organization, inform your groups all over the world, and discuss in safe forums.
